

## Installing Edge Express on Mac (Catalina)

1. Make sure you have registered with The Edge and that you have a customer id that looks like this **paul17** and a password. If you don't know your password we can look it up for you. When registering please make sure password do not have any illegal characters in them like (\*&^%)
2. Make sure there is no Edge Express folder in either your Downloads and Applications Folder, if there is delete them.
3. Go to > SYSTEM PREFERENCES > SECURITY & PRIVACY
4. Your window will look like this, just select the App Store and Identified developers

5. Go to your FIREWALL setting and turn it off (remember to turn it back on after installation)
6. The latest version of Java needs to be installed. Open up your safari browser (this next step will not work in another web browser other than safari) and go to [www.java.com](http://www.java.com), click on the red JAVA DOWNLOAD button.

JAVA + YOU,  
DOWNLOAD

Java Download

7. Click on the red “Agree and start download” button

### Download Java for Mac OS X

Recommended Version 8 Update 231 (filesize: 79.91 MB)

Release date October 15, 2019

 **Important Oracle Java License Update**

**The Oracle Java License has changed for releases starting April 16, 2019.**

The new [Oracle Technology Network License Agreement for Oracle Java SE](#) is substantially different from prior Oracle Java licenses. The new license permits certain uses, such as personal use and development use, at no cost -- but other uses authorized under prior Oracle Java licenses may no longer be available. Please review the terms carefully before downloading and using this product. An FAQ is available [here](#).

Commercial license and support is available with a low cost [Java SE Subscription](#).

Oracle also provides the latest OpenJDK release under the open source [GPL License](#) at [jdk.java.net](#).

By downloading Java you acknowledge that you have read and accepted the terms of the [Oracle Technology Network License Agreement for Oracle Java SE](#)

8. This will end up in your downloads folder that looks like this, double click this file

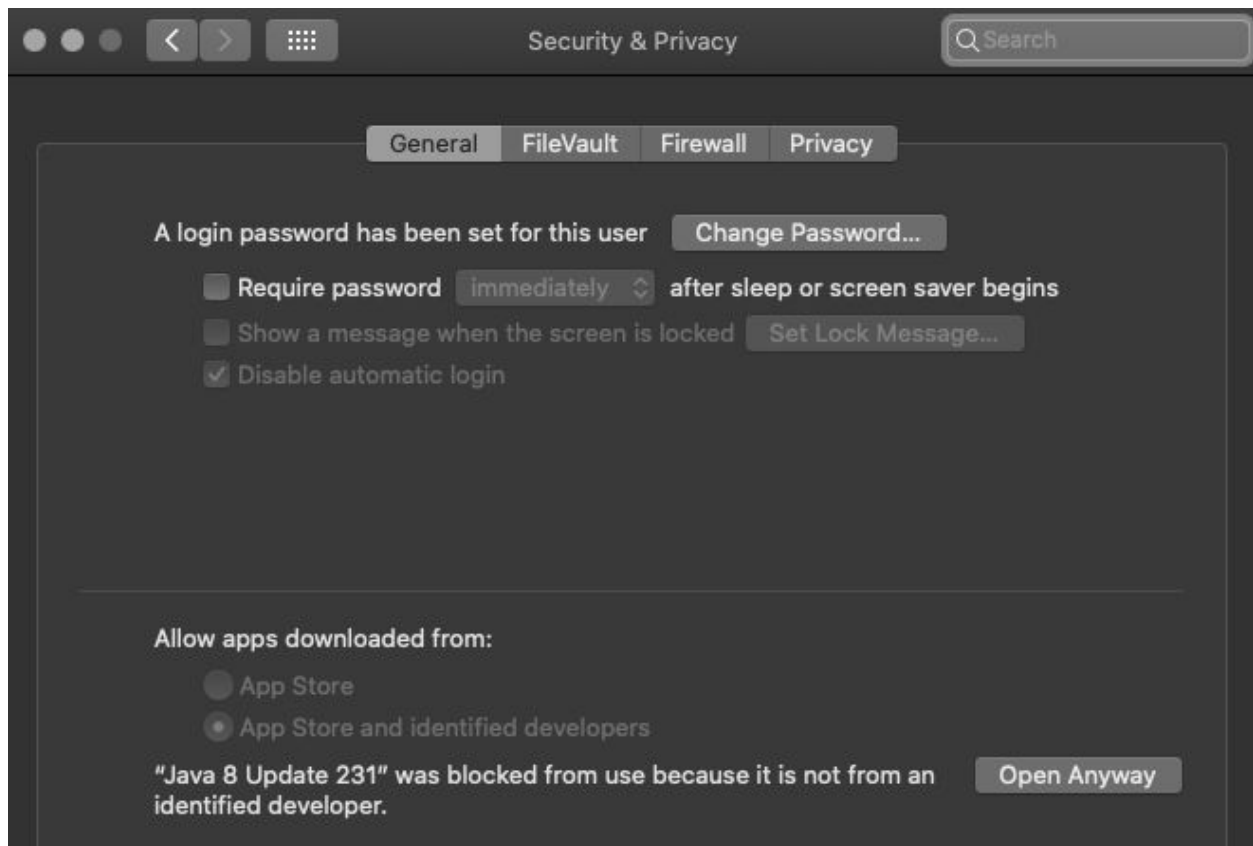

9. A black box will appear with a file in it, Double click this file.

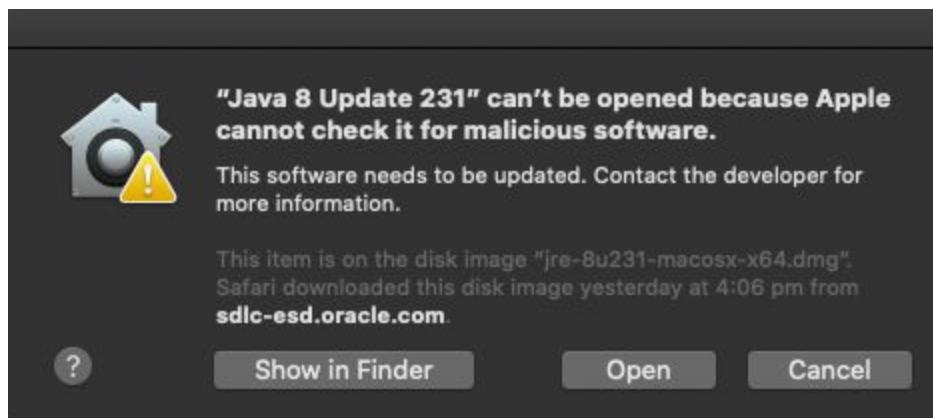

10. You will now get an error that looks like this, click ok
